

PRODUCTS & SOLUTIONS OVERVIEW

- » **Metering Systems (Gas & Liquid)**
 - Ultrasonic
 - Orifice
 - Rotary
 - Coriolis
 - Turbine
 - PD
 - Venturi
- » **LACT/ACT Systems**
- » **Pressure Regulating Systems**
- » **Pig Launcher and Receiver Systems**
- » **Surge Relief Systems**
- » **Trans-loading Systems**
- » **Additive Injection Systems**
 - Gasoline
 - Ethyl Mercaptan
 - Lubricity
 - Corrosion Inhibitor
 - Anti-Stat
 - Nox
 - Deicer
 - Marker
- » **Pump Systems**
- » **Terminal Load/Unload Systems**
- » **Blending Systems**
- » **Produced Water Metering Systems**
- » **General Pipe & Structural Fabrication**

PRODUCTS

- » **Sampling Systems**
- » **Sampling**
 - Composite Sampler Containers (API Section 8.3 certified)
 - IsoKinetic Probe (collection probe)
 - Smart Sampler (metered sampling)
 - VR22 sampler (volumetric sampling)
- » **Additive**
 - MiniBLOCK
 - ProPAC
 - Pump Skids
 - UL142 Tanks
 - Custom PLC Programing
- » **Control Panel Fabrication**

SERVICES

- » **Custom Fabrication**
- » **Installation**
- » **Startup**
- » **Commissioning**
- » **Additive Calibration Services**
- » **Preventative Maintenance Programs**
- » **P&ID Design**
- » **3D Custom Skid Designs**
 - Mechanical
 - Electrical
- » **3D Modeling/Rendering**
- » **Project Management**
- » **Factory Acceptance Testing**
 - Flow
 - Point to Point

High quality, competitive pricing, and quick delivery since 1999.

Chemtec Energy Services manufactures and provides turnkey solutions for liquids and gas industry metering and injection systems. These metering systems are used for custody transfer applications, including natural gas, crude oil and other petroleum-based products at well sites, pipelines, refineries, chemical plants, and loading/unloading facilities.

The Company also manufactures and installs additive and dye injection systems used to inject performance additives and/or dyes into petroleum products.
